

**Guru Nanak Dev Engineering College, Ludhiana
Civil Engineering Department**

Activity Report

A expert lecture termed as "Project Management Methodology and A Case Study of a Mega Multidisciplinary Project" was conducted at Guru Nanak Dev Engineering College, Ludhiana on 04/02/2020. It was conducted by Civil Engineering Department for students of all branches with an aim aware the students with project management and time scheduling for a project. Head of the department Professor H S Rai extended a warm welcome to Er. Rajesh Kataria, Ex Chief General Manager, Indian Oil Corporation Ltd and briefed the audience about the speaker and session. The speaker Er. Rakesh Kataria delivered the talk about various methods used for project management and presented a case study of Rs.1500 crore which was completed without any delay in time and not exceeding allocated budget for it. The lecture was very beneficial for mechanical, electrical and civil students especially as these engineering has direct bearing in the cited project. Students listened the talk with interest to learn latest up-gradation happening in the field. At last the different queries of students were addressed by speaker very well.
