

## Activity Report

**Name of Event:** Expert Talk

**Date & Venue of Event:** 01.05.2020 (11:00am – 1:00pm) through Google meet.

**Course Content:** Machine Learning Basics and career opportunities in IT

**Details of Event:** An expert talk for B.Tech. Third Year (A, B and E Group) was organized by Department of Computer Science and Engineering on 01.5.2020 (11:00am – 1:00pm). Mr. Puneet Jindal (Chief Data Scientist, Eduwaive Foundation, Mohali) had given talk on the topic 'Machine Learning Basics and career opportunities in IT' through Google meet App. This two hours talk was very beneficial and informative for all the students of CSE. Students learned about the Basics of Machine Learning and what kind of problems can be solved with it. Students also get awareness about current Career opportunities in the industry and knowledge about internship program conducted on student360 platform by Eduwaive Foundation that will be beneficial for them during their industrial training after this semester. All the advisors of third year also participated into this expert talk with students and learned the real world concepts of machine learning and data science that will be very beneficial in terms of their research and development learning.
