

ACTIVITY REPORT

Name of Event: MOODLE Workshop by Dr. H.S. Rai

Date: 05- Dec, 2019 **Venue:** Consultancy Hall, GNDEC, Ludhiana

Course Contents

- Introduction to Outcome based Education
- Brief Introduction to GNE MOODLE based LCMS live at guru.gndec.ac.in
- Logging in, creating course and additional options available to faculty

Expected Benefits Derived

The workshop was started with practical session at computer center to get some idea about the software interface and how students will interact with the course created by faculty. Everyone logged into their respective profiles to enroll for the demo course created for the sake of workshop. The sample aptitude test with few questions was designed. It was helpful as the participants got the idea initially. After this session, the MOODLE software was introduced with the description of the features and abilities of the tool were described. How it will be helpful to the college:

- Faculty will create their own courses for a specific group or all learners
- Teachers will be able to manage the assignments and attendance of their students
- Instructor can easily evaluate the performance of their learners and can give feedback
- It will contribute towards digital learning
- The overall performance of the students will surely increase
