

Activity Report

Department of ECE has organized pre-Training Orientation Program for final year students of Batch 2016-20 Section-B, so that students can well familiar with the industry trends. To provide best quality lectures for students, resource persons for this program was hired from Ansh Infotech, CSIR, MSME and CDAC well known organizations. The Program was divided into four modules i.e.

- Internet of Things
- Industrial Automation (PLC-SCADA)
- Digital Image Processing/Digital Signal Processing
- Artificial Intelligence & Machine Learning

Each module was taken by different expert for two days. So the program continued for eight days from 9:00AM to 1:00PM in department's Computation Lab. Students had also shown their keen interest during the training program.
