

Civil Engineering Department
Two Weeks Training Oriented Programme

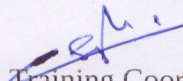

Activity Report

Department of Civil Engineering organized two weeks Online Training Oriented Programme starting from 01/02/2021 to 12/02/2021 to acclimatise the students (who are going for Six months industrial training as per their curriculum requirement) regarding various trends being followed in the field of Civil Engineering. The students were made to interact with Experts from various fields of Civil Engineering, who have immense experience and knowledge in their domain. The interaction of the students was done in online mode to avoid Covid-19 spread, so that maximum students could reap benefits from the vast horizon of knowledge of experts in a safe and healthy environment. A proper schedule was prepared and circulated among the students, which helped to prepare them mentally and emotionally to attend the Programme and what can be expected out of it.

Dr. Daljeet Singh (Xen, PWD, Punjab), Prof. G S Sodhi (TPO, GNDEC, Ludhiana), Mr. Aman Arora (Zetwerk Manufacturing Business Pvt. Ltd), Er. Ravneet Kaur Saini (Specifications Manager, Saint Gobain, Middle East), Er. Jatin Chandana (Ex-Senior Planning Engineer, L&T Const. JE, PWI, Indian Railways), Krishan Kumar (Engineer, Ultratech), Er. Manjot Singh Paik (Structural Engineer, A.S. Paik and Associates, Ludhiana) and Er. Gurpreet Choudhary (Procurement Planner, Thermax Limited) were the resource persons for the programme.

Based on the Training imparted to the students, an online exam of 80 questions was also conducted through MOODLE platform and hence evaluating the level of the students for the purpose of Industrial Training. It was noticed from the responses of the students that they have been greatly influenced by the Training.

The students were quite satisfied by the conduct of the Industry Orientated Program as they were now enlightened about the conditions, type of work to be done on construction sites, responsibilities to be taken care of while working on the site and various other real life aspects attached to a Civil Engineering works.
