TEQIP-III Sponsored

Two weeks online Industrial training programme

Total no. of participants: 51

4th year

Section: B

Total no. of resource person: 8

Coordinators: Pf. Amandeep Singh Ghatora

Pf. Baljeet Singh

The mode of two weeks training was purely online at Google meet app. According to schedule two sessions were conducted per day, the time duration of each session was 90 minutes. First session was taken by Pf. Gagandeep Singh Sodhi, to aware the students about basics of components of industry. Then next sessions as per schedule were conducted by Mr. Lalitesh kumar Singh, which was very informative for students. Students were able to learn about HMI and SCADA. Attendance was taken by Google form for both sessions. So the next sessions were delivered as per schedule and also detail of all resource persons as well as topics. All the topics were related to industry exposure for the students. So they could be able to explore their knowledge in six month internship. Then last session was taken by Mr. Devender Dhawan, which was also too much informative for new advance technology like IOT. The main focus of orientation programmes to aware the students about the industry and all topics were related to different areas.
