

ACTIVITY REPORT

Programme on "Series of Expert Lectures"

From 8th to 10th March, 2021

Skill and Personality Development Centre, Guru Nanak Dev Engineering College, Ludhiana organized Programme on "Series of Expert Lectures" from 8th to 10th March, 2021. As Soft Skills and Personality Development is need of the hour, this Programme was focused on Fundamentals and various initiatives in to capable the students industry ready. Contents of this course were aimed in making the students aware of the skills used as an employee in the industries such as meaning and nature of formal, Informal communication, use of effective language, verbal communications etc. It developed the relevant skills imparting knowledge among all in an interactive manner, in a formal environment.

More than 200 students registered for this course including parent institute as well as institutes from other states. The course was organized in blended mode which includes offline and online conferencing. Inauguration of the event took place on March 8th, 2021 in the presence of Dr. Harwinder Singh, SPDC Coordinator addressed the participants and ensured that everyone involved in the course get the contents for implementation in their life. Er. Lakhveer Singh Khana, Course Coordinators welcomed everyone.

Mr. Sony Goyal (IIM Ahmedabad alumnus) shared how students will prepare for CAT examination as an entrance test of MBA in various universities. He performs different solutions of the previous year's questions with students in the seminar as well. It helped the students to know how to react and answers the questions in small time interval. Various other aspects like marks, attempting of question, what to do during paper and what not to do things.

Prof. Lakhveer Singh Khana shared how students will opt the E- learning rather than traditional offline or classroom learning. He discussed in detail about National Programme on Technology Enhanced Learning (NPTEL) from which students can enroll and join different courses rather than their ongoing education and get certification. The whole fee of this examination and courses was provided by the college authorities which means students doesn't have to pay a penny to do these type of courses on SWAYAM NPTEL website.

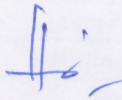

Prof. Shivmanmeet Singh shared how students will opt the digital resources like digital classroom, online books and different tools rather than offline system which gives benefits to

the students in the ongoing situation and in future for the betterment of their career. He explained in detail about how each user can retrain their daily data while using different apps like Google classroom, zoom, web cisco etc. after this he explain some settings of mobile phones about the catching of signal which helps in constant internet speed connection.

Mr. Sudhir Dua shared how students will crack entrance test and interview for various industries. He shared his valuable ideas and experience to explain the factors including interview cracking skills. Then he performs a group discussion round with voluntary some students from the hall and explain them which words are used to be a positive outcome or selected candidate from the interview. Last but not the least he executes the interview with some students personally and explain what an interviewer notice while interviewing a candidate.

Overall, students were highly benefitted from the course sessions and gained an invaluable knowledge. Students appreciated this unique initiative of the team and also, said that such kind of courses should be organized in future to stay updated with skills used in industries.

As an Organizer's we are not done with this, in upcoming weeks we will organize these types of lectures which gives benefits to the students for the industry exposure.
