

ACTIVITY REPORT

Name of the Event : International Conference Aeronautics and Beyond (ICAB-2019)

Date and Venue : 21st to 22nd June, MRCET, Hyderabad

International Conference on Aeronautics and Beyond (ICAB-2019) was held at department of Aeronautical Engineering, MRCET, Hyderabad. It provided a platform for research scholars, young scientists, professors and industry personnel together across the globe to disseminate diverse technologies acquiescent to aeronautics, renewable energy, smart materials and artificial intelligence.

The event focused on presentation of impactful solutions, identifying the research gaps and hypothetical conjectures using analytical, numerical and experimental techniques towards engineering. The peer interactions at the presentation enabled us to learn scientific solutions to various problems and exchange new ideas.

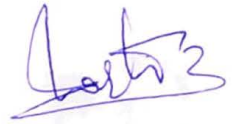

The papers were presented and certificates have been attached with this report for ready reference. All the presented papers will be published in Scopus Indexed Journal, IJMPRTD in regular series with ISSN (print) 2249-6890 and ISSN (online) 2249-8001.
