

Report for India Science Festival held at IISER Pune on 11-12 January, 2020

Name of Event: India Science Festival

Date and Venue of Event: 11-12th Jan, 2020 at IISER Pune

The India Science Festival was hosted by Aspiring Minds, an India based assessment firm in collaboration with Lakshmi Mittal & South Asia Institute of Harvard University. The Theme for the festival was Neuroscience and Artificial Intelligence. In the fest, speakers from Harvard, Google, and Microsoft share thoughts on Artificial Intelligence. There were various workshops for students and adults.

Artificial Intelligence generated art, driverless cars and brain-controlled helicopters were the major attractions of the festival. Several exhibitions, discussions on topics related to science were there during this two-day event.

We are thankful to the Principal (GNDEC LDH) & TEQIIP coordinator for giving us this worthy opportunity to be a part of this festival.

Prof. Daljit Singh (ECE)

Prof. Rupinder Kaur (IT)

Prof. Prabhjot Kaur (TEQIIP)

Prof. Ramandeep Singh (Mechanical)
