

# Report on One week TEQIP sponsored

STP on

Clean energy Technologies

held at IIT, Guwahati from June 10-14, 2019

One week STP on Clean Energy Technologies was conducted by Centre for Energy Studies, IIT, Guwahati at IIT Guwahati from June 10-14, 2019 for faculty from TEQIP sponsored/mapped institutions. Over 30 participants from various NITs, Reputed TEQIP mapped institutions, DST etc. attended the program. The program gave an insight into why clean energy was the need of hour and how could we harness clean energy. Technological developments in field of energy for harnessing energy from:

Biomass

Biofuel

Nuclear

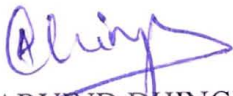

Hydel (micro & mini)

Microbial fuel cells

energy from waste

The experts were from various departments/ centres from IIT, Guwahati, DST, MSME, university of Sakstchwan. They gave knowledge about the latest techniques being developed to harness clean energy.

Two sessions on teaching pedagogy were also held in which the experts dwelled on how to organize the class and engage the modern day students.

Dr. ARVIND DHINGRA
