

# ICIIE-2020

International Conference on Integrated Interdisciplinary Innovations in Engineering  
(August 28-30, 2020)

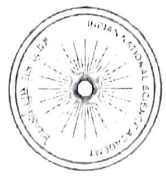

Organized under twinning arrangement by

**University Institute of Engineering and Technology, Panjab University, Chandigarh**

**and**  
**Government College of Engineering and Technology, Jammu**

Supported by :

This is to certified that **Mr. Harish Kumar Banga** of **Guru Nanak Dev Engineering College , Ludhiana** has presented a paper entitled “**Utilization of additive manufacturing in orthotics and prosthetic devices development**” online in the **ICIIE-2020** held at Panjab University, Chandigarh.

*Minto Rattan*

(Dr. Minto Rattan)  
ICIIE-2020 Coordinator

**Certificate**

**No. 008**

*Savita Gupta*

(Prof. Savita Gupta)  
Director, UIET Chandigarh

## A Report on Attending A Conference

**Name of Event----** International Conference on Integrated Interdisciplinary Innovations in Engineering (ICIIE-2020)

**Date & Venue of Event---** August 28-30, 2020, University Institute of Engineering and Technology, Panjab University, Chandigarh

**Research Article** Utilization of Additive Manufacturing in Orthotics and Prosthetic Devices Development

Dr. Harish Kumar Banga

Dated :16/09/2020

The International Conference on Integrated Interdisciplinary Innovations in Engineering (ICIIE-2020) covered various topics on interdisciplinary engineering . Since my research is focused application of additive manufacturing in orthotics and prosthetic devices development , this conference provided a full opportunity for inspirational and constructive discussions. This conference also acted as a platform to enhance a constructive dialogue on our research, especially on interdisciplinary engineering collaborative work.

The research paper I presented virtually at the conference has been allocated in the Bio Technology section. The research was: " Utilization of Additive Manufacturing in Orthotics and Prosthetic Devices Development. Harish Kumar Banga, Assistant Professor, Puneet Kumar , Hareesh Kumar, UG Student, Department of Mechanical Engineering, Guru Nanak Dev Engineering College, Ludhiana and published in the Research Journal of Biotechnology, WRA. I was presenting a oral presentation at the conference for 15 Minutes and 5 Minutes for Q &A in Session 5 on Saturday, 29 August 2020 and I was also attending other conference programs during Sunday, 30 August.

Attending this conferences, especially the international ones, gives me the chance to listen to different points of view and learn new ideas and trends in our field. They also provide you with new techniques, new types of equipment, data that is yet to be published, and investigators that we may not have heard of. Attending important international conferences will make us a known figure in academic circles, not to mention the benefits for our resume as it will create an impression that we are an active member of the academic community. Which will help to increase our institute ranking in research as well as academic area .
