

Activity Report

Name of the Event: Indo-US Symposium on Synthesis, Characterization & Processing of Inorganic, Bio and Nano Materials (SCPINM 2019)

Date and Venue: 20th and 21st December 2019 at Chandigarh University (CU), Gharuan

Course Contents/Conference Activity: Presented paper on "Comparative Evaluation of Aluminum and Stainless Steel Dissimilar Welded Joints" on 20th December, 2019. Attended Keynote speakers address by Dr. Mandeep Singh Bakshi, University of Wisconsin, Green Bay, USA, Dr. Shramik Sengupta, University of Missouri, USA and Dr. Ajeet Kaushik, Florida Polytechnic University, USA followed by technical sessions.

Expected benefits delivered & how it will helpful to the college: The symposium was prestigious in the broad area of characterization and processing of materials. The symposium focuses on the sustainable development in Inorganic, Bio and Nano Materials. The paper presented will be published in Elsevier's Material Today's Journal, with this the name of the college will be highlighted in the world. The symposium will be helpful in the continuous improvement in the research activities to publications our work at international level. Also it will help me to guide the students for the research work.

Kindly reimburse the travel and registration fee at the earliest.

Thanking You

Yours sincerely

Prem Singh
