

**“Activity Report on Professional Development Training
(PDT) Program at IIM, Indore from 17th-21st June’19”**

I went to IIM, Indore to attend Professional Development Training under TEQIP-III from June 17-21, 2019. The program was well designed and divided into different sessions each day. We were well informed about difference in vision, mission and goal in academia by Prof. D.L.Sunder. There was a lecture about entrepreneurship in college/universities and also about improving governance system in academics by Prof. Prashant Salwan. We were acquainted with team building and also teaching and learning strategies in 2nd day. On 19th June, there was a knowledgeable session in ‘Use of ICT on ERP module’ by Prof. Prabin Kumar Panigrahi. The other topics which were covered under program were accreditation process, industry interaction, procurement management and Laboratory management. Director of IIM, Dr. Himanshu Rai delivered excellent lecture on ‘Excellence in Education’. The program mesmerized me and it motivated me. I will try to apply the good things learnt from this program in my institute.
