

## ACTIVITY REPORT

### Name of Event:

3<sup>rd</sup> International Conference on Waste Management (RECYCLE 2020)

Date: 13<sup>th</sup> –14<sup>th</sup> February, 2020

Venue: IIT Guwahati

### About the Conference:

Recycle 2020 aimed at stimulating the awareness of researchers, scientists, professionals and citizens about the safe practices and latest technologies for managing and treating solid and liquid wastes. With an emphasize on the core issues of waste management through safe and efficient practices, Recycle 2020 provided an excellent platform for exchanging and discussing the ideas, practices and techniques for waste management.

### Expected Benefits Derived:

1. The conference provided me an opportunity to present my work in the form of a research paper titled "Recycling Construction & Demolition Waste: Potential Applications and the Indian Scenario".
2. The conference provided a rich opportunity to interact, network with the professionals and experts in the field. Besides this, visiting such an institute was an experience in itself. Got to learn so much from the entire campus, the department, and the laboratory visits.
