

## ACTIVITY REPORT

### Name of Event:

3<sup>rd</sup> International Conference on Innovative Technologies for Clean and Sustainable Development

**Date:** 19<sup>th</sup> – 21<sup>st</sup> February, 2020

**Venue:** NITTTR, Chandigarh

### About the Conference:

The Conference aimed at establishing long term linkages between user industry and providers of clean technologies and sustainable materials for a rapid transformation of the SMEs in the region for enhancing Eco-efficiency and competitive strength of such industries through clean technology interventions. The conference served as a platform to create awareness and appreciation amongst academicians, scientists, researchers and practitioners from various disciplines and sectors about developing and implementing sustainable practices and technologies that would minimize the impact on our environment. Deliberations were done on new initiatives in the latest technologies in the field of infrastructure. This has proved instrumental in formulating concrete strategies with optimal utilization of available resources for developing these technologies; consolidating the suggestions, strategies, and recommendations were made during the conference and it widely disseminated the knowledge on the topic.

### Expected Benefits Derived:

1. The conference provided me an opportunity to present my research work in the form of a technical paper titled “Applications of Fiber Reinforced Polymer Laminates in Strengthening of Structures”.
2. The conference provided a rich opportunity to interact, network with the professionals and experts in the field.

Yuvraj Singh  
Assistant Professor  
Department of Civil Engineering  
Guru Nanak Dev Engineering College, Ludhiana
