NAME OF EVENT – COMPUTER NETWORK AND HARDWARE ▲MAINTENANACE.

DATE & VANUE OF EVENT – 15/07/2019 to 19/07/2019 NITTTR CHANDIGARH.

COURSE CONTENTS – OVERVIEW AND INTERNALS OF PCs AND LAPTOPS' HARDWARE AND NETWORK COMPONENTS, NETWORK TOPOLOGIES & IP ADDRESSING, TROUBLESHOOTING, OVERVIEW CLOUD COMPUTING & NETWORK SECURITY TOOLS, DISASSEMBLING AND ASSEMBLING OF DESKTOPS, INSTALLATION OF WINDOWS & LINUX, CONFIUGRING OF ACCESS POINTS, SMPS, UTP CABLES WITH CRIMPING & PUNCHING.

REMARKS – As we have attended 5 days Training on Computer Networking and Hardware Maintenance.

This training enhanced our existing skill as we got awareness about some new techniques in Computer Maintenance. The field of Computer Hardware, Software and Networking a growing very fast & this course provided exposure to new technologies in the field.

We can now put this know-how to our existing work routine & it will help us to improve the performance of network in department labs as well as the maintenance of various levels in computers.

The contents of the course regarding Networking & Maintenance, configuring of network devices and introductory sessions on new techniques through Cloud Computing are very beneficial to energize learning and updating ourselves. The Experts delivered very detailed lectures on several topics related to the course. Network Security introductory session aware us regarding various online attacks etc.

Overall the course was very beneficial to us and we tried our best to grab a lot from the expert sessions. Here, we realize that to keep ourselves up-to-date with the recent trends of technology, we should must be provided such opportunities to attend this type of STCs in future too.

Regards,

Gurmukh Singh (Lab. Superintendent, CSE)

Jatinder Singh   (Lab Technician, CSE)
